PROFESSIONAL SUMMARY

I am currently a student at Full Sail University studying game programming under the bachelor's in computer science. I am interested in building the foundations of programs as well as refactoring and streamlining of methods and functions. The skills I have acquired while studying for my degree are major troubleshooting, object-oriented programming, loops and base variables. I am seeking an entry level job at a game studio that works on games in genres I enjoy.

TECHNICAL SKILLS

Programming Languages: C++
Software & Tools: Visual Studio, Git, GitHub, Microsoft Office
Technical Concepts: Object-Oriented Programming, Classes & Objects, Functions, Loops, Input Validation, Debugging, Version Control, Pull Requests

TECHNICAL EXPERIENCE

Current Course Project

- Developed a C++ console application using object-oriented programming.
- Implemented multiple classes, functions, and user input validation.
- Used Git and GitHub for version control using commits, branches, and pull requests.
- Tested, debugged, and refined the application through iterative development.
- Created technical documentation and a project demonstration.

PROJECTS

Pet Keeper

A simple pet companion program that allows you to make new pets and manage them. To manage them you can pet, feed and give medicine when they get sick.

Technologies: C++, Visual Studio, Git, GitHub
Repository: https://github.com/bspen1994/October-COS1

EDUCATION

Full Sail University

Bachelor of Science in Computer Science
Expected Graduation: May 2028

Relevant Coursework:
• Programming Fundamentals
• Object-Oriented Programming
• Software Development
• Version Control

EXPERIENCE (OPTIONAL)

Occupation: US ARMY Soldier

Start date: August 2020

End date: March 2022

Skills: Leadership, team management, project management
